Average price per pound:

The price of live chicken per pound on average **decreased** by approximately 13.02% or \$0.78 over the period November 21st to December 12th, 2010. This is mainly due to the current glut in the supply of live chicken locally causing producers to lower their prices to quickly sell off any excess chicken.

Average pluck and gut fee:

The average pluck and gut fee decreased by 0.52% or \$0.05 over the period November 21st to December 12th, 2010.

¹ The 'live weight' price is the price before the chicken has been plucked and gutted. It is estimated that on average, 20% of this live weight is lost in the pluck and gut process for which an additional fee is charged.

² The 'final/dressed weight' price is the live weight per pound plus the pluck and gut fee.
